Based on your observations and available data, read the TFI Scoring Guide and come to consensus on point values for each item. Score each item according to its current status in your school – do not base your score on future plans for implementation (e.g., after you present your drafts to your staff). When you have finished the assigned items, add up your score for each. The total TFI Score is not important for this activity. When the activity is complete, your team can use this information to prioritize plans for problem solving and implementation.
