

Vision Activity

Vision

- Does your school have a vision that compels new ways of thinking and acting?
- If you could create the school of your dreams, what would it look like and sound like with a positive, proactive, and instructional approach to discipline?

Align your Vision

- How will/does this vision of your school align with your School Improvement Plan, your Mission Statements, your school policies?

Create your Vision - **Activity – Think, Pair, Share**

Think: Using post-its – write descriptors of what you would see, hear, and achieve in the school of your dreams. *It is recommended to include your whole staff.*

<i>In the school of our dreams, it will...</i>		
Looks like... <i>What will we see?</i>	Sounds like... <i>What will we hear?</i>	Achieve these outcomes...

Pair: At your table share your vision creating a team poster through words and/or pictures representing what it will look and sound like.

Share: Hang your poster on the wall and complete a gallery walk of the t-charts.

Establish an Action Plan for Implementing your Vision

- What desired outcomes will you create to align to your vision?
- How will you monitor the effectiveness of your vision?
